Professional Summary

Frontend Engineer with 4.4 years of experience building scalable, high-performance web applications using React.js, Next.js, TypeScript, and JavaScript for enterprise retail clients including **Walmart and Gap Inc.**, with expertise in frontend architecture, reusable component development, REST API integration, authentication workflows, and performance optimization.

Experience

HCLTech

Noida

Software Developer (Promoted from Graduate Trainee)

Feb 2022 – Present

Delivered enterprise frontend solutions for retail clients Walmart and Gap Inc. at HCLTech

Tech Stack: React.js, Next.js, TypeScript, JavaScript, Redux Toolkit, Material UI, Zustand, Jest

- **Led development and performance optimization** of high-traffic Product Detail Pages (PDP) (**Gap Inc.**), reducing page load time by 20% and improving user experience
- Developed scalable and responsive React.js modules for **Walmart Spark Driver platform**, supporting high user traffic across mobile and web applications
- Build reusable React.js components and shared UI patterns, accelerating feature development and reducing implementation **time by 30%** across the application
- Implemented secure authentication workflows **using Email/Password and OTP verification (Walmart)**, improving login success rates and reducing user drop-offs
- Improved **application performance by 20%+** using code splitting, lazy loading, image optimization, and Next.js rendering strategies
- Leveraged New Relic and PagerDuty for real-time monitoring and incident management, reducing average **resolution time by 35%**
- Enhanced reusable component architecture and optimized state management using Redux Toolkit and Zustand, improving development efficiency and maintainability
- Resolved **100+ production issues and critical bugs**, significantly improving application stability and reducing recurring defects
- Collaborated in Agile Scrum teams through sprint planning, code reviews, feature development, and production deployments

Projects

Full-Stack E-Commerce Platform | *Next.js, React.js, Node.js, Express.js, MongoDB*

- Developed a full-stack e-commerce platform with admin dashboard and complete CRUD functionality
- Built dynamic product pages with REST API integration and enhanced frontend rendering
- Designed scalable backend REST APIs for authentication, user operations, and product management
- Created responsive and mobile-first UI ensuring seamless cross-device compatibility
- Implemented reusable frontend components and optimized state management for improved maintainability

Technical Skills

Frontend : React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Material UI, React Hooks, Context API

State Management : Redux Toolkit, Zustand

Performance Optimization : Code Splitting, Lazy Loading, SSR

Backend : Node.js, Express.js, REST APIs

Tools & Platforms : Git, GitHub, JIRA, New Relic, PagerDuty

Testing : Jest

Education

Shri Ramswaroop Memorial University (SRMU)

Lucknow

Bachelor of Technology in Computer Science

2017 – 2021
